

Remember!

Albany is a city of homes. It wouldn't be if it were not for our local merchants. Houses don't make a city. Support them, your property values depend on it!

NEW CHEST LEADERS ANNOUNCED

New leaders of the Albany division in the coming drive for 1951 funds for the Albany-Berkeley Community Chest were announced today by William G. Woolworth, former "general" and this year's chairman of the Albany Advisory Committee.

Harold Denham, Albany merchant and president of the YMCA Board of Directors, will head the local division this year, assisted by the Rev. Robert L. Benefiel of the Community Methodist Church as associate "general," and Elmer F. Coble, aide. Coble is executive secretary of Albany YMCA, a Red Feather agency.

Campaign General Chairman Darlow L. Sutton today said of the new appointments: "The great enthusiasm these men have in the Community Chest cause, plus their considerable abilities, makes us all confident that the Albany division will attain 100 per cent of its goal in the drive this fall."

Rotary Members Briefed on Club Service, Duties

Albany Rotarians today were re-appraising their duty to club and community service after hearing reports from delegates who attended the 157 District Assembly in Mt. Shasta last weekend.

Highlights of the Assembly were given at the Monday luncheon, during which President Elmer Coble emphasized the importance of team work for various committees.

"The progress of our club will be determined by three important elements: men, methods and money. "The men are our members, the methods our club service and the service of our money from a carefully planned budget," Coble said.

With Albany's approximate population of 18,000 and over 260 business classifications, Coble recommended that the club recruit one new member per month until a goal of 80 is reached.

Others reporting on the Assembly were Fred Grauholt, a past president and Secretary George Irwin.

Brint Yetter, who operates a welder's supply business, was accepted into the club as a "baby" member. He was introduced by Eddie West.

A new "fining" system was introduced to members in which the sergeant-at-arms names the "charges," instead of the president. The new system will relieve the president of an extra "burden," and provide more even distribution of fines among members.

Visiting Rotarians and guests were welcomed by John Kampe.

FUNCTIONS OF ALBANY CHAMBER TOLD BY PREXY

What is the function of a Chamber of Commerce?

This question is often asked and little understood, Jack O'Keefe, president of the Albany Chamber of Commerce, said today.

"The Chamber of Commerce serves as a clearing house for ideals and programs that will make the community a better place in which to live, to work and play," O'Keefe pointed out.

"It is the duty of a Chamber to co-ordinate and harmonize the commercial, professional and civic interests of a community in order to best serve the welfare of all citizens.

Weed-Burning Starts Tuesday

The annual "operation weed-burning" on vacant lots throughout the city and on Albany Hill will get under way Tuesday, Albany Fire Chief Fred Pimental announced today.

"There will be no burning on Mondays," Pimental said, "since that is the traditional washday." Because of the heavy and strong smoke from the grass fires, Pimental recommended that housewives keep all doors and windows closed when the fire crew is burning in their vicinity.

Pimental estimated that it would take around two weeks to complete the work.

Contract Let For Second Cornell Unit

The Albany Board of Education Tuesday night accepted a low bid of \$130,744 for the construction of the second and final unit at Cornell School, according to Clifford C. Lockhart, president.

Lockhart said the contract for the work was awarded to A. F. Stewart of Berkeley, whose low bid was one of five ranging to \$175,785.

The new two-story unit, part of the program included in the school bond election of October, 1948, will provide two classrooms, a cafeteria, separate teachers' lunchroom, kitchen and library on the first floor.

The second floor will house a room for the Board of Education and administration offices for the superintendent and his staff.

The cafeteria in the new addition will accommodate approximately 200 at one time. The Board plans to make it available for community functions when not being used by the school.

The Board's room will be available for use by various school committees, adult education classes and other activities, Lockhart said.

The Board employed two new teachers Tuesday night. They are Mrs. Helen Stevenson, elementary, and Albert Lee, high school instructor.

In other business, the Board:

1. Authorized the purchase of 170 desks for Marin School at a cost of \$3883.
2. A sum of \$3550 was allotted to buy shrubs for the swimming pool yard, and \$2500 for the installation of bleachers, which will accommodate 300 spectators.
3. Authorized the high school gardener to landscape the Memorial Lane strip in front of the high school.

Tentative date for the dedication of the \$171,890 Albany High School Swimming Pool today was set for Sunday, September 3, according to Dr. Paul C. Bryan, superintendent of schools.

A program committee was named by the Board of Education to plan the official dedication rites. They include Bert Griffin, recreation director for Albany schools, chairman; William Feeny, high school vice-principal; Mrs. Dawn Pawson Bean, alumni representative; Mrs. H. L. Galbraith, PTA president; Sherman Davis, student body president; W. H. Bouton, music instructor; and Lloyd Hogan, past president of Albany High School Dads' Club.

Construction of the 40 by 100 foot year-round pool is modern throughout and will be equipped with a heating, filter and purification plant. Comfortable and heated dressing rooms are included in the building, along with bleachers for spectators.

In addition to high school students, Bryan said considerable outside interest has been shown regarding use of the pool. He said the pool will be opened immediately after dedication for students and adults and will be used both day and evenings.

The tentative schedule will provide swimming one or two times a week for high school students through regular physical education classes.

Bryan said an hour of instructions are planned for elementary students between 2:50 and 3:50 p. m. The children will be brought in groups by their regular teacher, who will have general supervision during the period. Lifeguards and instructors will be provided by the school.

"All elementary children will be permitted to swim during this period," Bryan said, "if their heads reach above the water while standing at the shallow end of the pool. Smaller children will have to swim with parents or other responsible adults present."

Swimming instruction for adults will be provided as part of the adult education program, along with recreational swimming for the public on afternoons and Saturdays and on all vacation days.

Council Must Act Before End of 1951

Albany must decide by the end of 1951 what to do about its portion of Codornices Village.

The question on the fate of the Village was raised by Councilman Jerome Blank Monday night during an unusually brief and model Council session which attracted one of the largest crowds in weeks.

Blank told the Council the city should begin considering the Village problem soon, since the Government is giving up control of the units at the end of next year.

"Do we want to continue the project?" Blank asked, "and if so, do we want to take on the expense of operating it?"

Blank said the city engineer estimated that cost of repairing streets and sewers in the Village would cost the city \$50,000. He also said the city would not receive the \$11,000 in lieu taxes from the Government, if the city took over.

Councilwoman Mrs. Kathie Zahn said she felt the city could not "turn the people in the Village out just because we are lucky enough to have a roof over our heads."

Blank said if the city took over the project a long-range contract for lease of the property would have to be worked out with the University of California.

"We have to find a solution," Mrs. Zahn said. "Mr. Mayor, if you have a committee I would like to be on it."

Mayor Frank Graeber said that a citizens' committee was appointed some time ago to study the problem and that he would look up the names.

On a motion of Councilman Raymond Cleary, the matter was referred to the Park, Planning and Zoning Commission for further study.

City Attorney Edward R. Plotner stated that he wished to "deny rumors that he was planning to resign."

"Several members of the Council have heard the rumor and my wife has also heard it," Plotner said. "I have no intention of resigning."

The Council held three budget hearings this week to consider the proposed \$491,000 budget for the 1950-51 fiscal year.

Building Permits Up During June

Thirty-seven permits for the construction and alteration of buildings estimated to cost \$96,168 were issued by the City of Albany during June, an increase of \$32,712 over June, 1949, according to a report from E. A. Tarr, city engineer.

Leading figures in the report showed five permits were issued for commercial alterations estimated to cost \$59,700, and alterations on the Marin School at a cost of \$21,000. Included in the school total was a permit for the construction of two new classrooms estimated to cost \$17,000.

Fees collected during June totaled \$447.44, including building permits, \$295; electrical, \$63.55; plumbing, \$31; gas appliance, \$28, and others, \$30.

Value of permits issued through June 30 was \$502,816.

Albany Donated \$3514 to Polio

Albany residents contributed \$3514 to the \$154,346 "fight polio" fund raised in Alameda County during the March of Dimes campaign early this year.

In a report to Joe Villa and Del Courtney, local campaign leaders, Fred C. Wells, treasurer of the county chapter of the National Foundation for Infantile Paralysis said that "the people of Albany, by their generous donations, indicate their awareness of the tremendously grave polio situation throughout the country."

Final returns from the county-wide drive were several thousand dollars less than in 1949, when collections were taken in major chain theatres," Wells said. "Nevertheless, they were most gratifying in the face of failures reported by other fund drives."

Editor:

The following letter was submitted July 1 to the Albany Board of Education and Dr. Paul C. Bryan, superintendent of schools:

Most of us, the citizens of Albany, are inclined to criticize our public officials but very seldom think of expressing our praise and gratitude for things well done.

The welfare and happiness of our youth is of prime importance to every resident of a community and you, as custodians of our school age children, are to be thanked and com-

1. Your untiring and ceaseless efforts put forth in getting our school bonds approved by such a tremendous majority;

2. Our swimming pool for which there has been such a need these many years, and the fact that you realized that wholesome, healthy and happy youths are the result of providing such a form of recreation;

3. Our athletic field which will do so much for the morale of our high school athletes, and the fact that you have known of and corrected the handicap our youngsters have been under in athletic contests with our neighboring high schools;

4. The foresightedness you have shown in recognizing our very urgent need of additional primary schools, and the excellent plans carried to completion of the two modernly equipped and well lighted schools;

5. The heedful thought and recognition of the hazardous and dangerous situation that existed to our children in attending Cornell school

Q. What is the name of these cuts of meat?

A. Lamb riblets.

Q. Where do they come from and how are they identified?
A. Lamb breast. The breast bone is removed and the breast cut between ribs. Each small piece contains part of a rib bone.

Q. How are they cooked?

A. By braising or cooking in liquid. In braising the meat is browned in a small amount of hot fat, from 1/4 to 1/2 cup liquid is added, the utensil covered and the meat allowed to slowly cook until tender. In cooking in liquid as for a stew, the meat is browned or not as desired, completely covered with water and simmered until tender, about 1 1/2 to 2 hours.

Coffee Treats for Television Fans

Photo by Nescafé

When your favorite television programs are over, good coffee should always be on tap for family and friends to serve with something "special" as a fitting finale to a perfect evening. Any one of the coffee-flavored desserts featured will be just right for late evening refreshments. Easy to prepare and impressive for any occasion are these desserts that combine modern cooking with old-fashioned goodness.

You can serve one or many with fresh, flavorful coffee in a flash. Just measure one teaspoon of soluble coffee (more or less rounded according to strength desired) in a cup, and add freshly boiling water and stir. To make six cups of good coffee, just pour one quart of boiling water on 6 teaspoons of soluble coffee and stir to assure a bowl of even strength.

Coffee and Cream Cake is a delicious accompaniment for coffee-flavored ice cream, made simply and quickly by blending 1 tablespoon of soluble coffee with one package of ice cream mix. This is a neat trick that wins compliments every time. For an extra special evening, surprise your guests with Marshmallow Supreme, a simple dessert with a sophisticated flavor of fresh coffee.

COFFEE AND CREAM CAKE

(Make your favorite plain cake mix recipe and then use:

COFFEE CREAM FILLING

6 tablespoons sugar 2 teaspoons soluble coffee
3 tablespoons flour 1 cup scalded milk
1/2 teaspoon salt 1 egg yolk

Combine first 4 ingredients in a small pan. Beat egg yolk slightly, add a little of the hot mixture and re-until thickened. Place over hot water, cook about 15 minutes. Add butter, cool thoroughly.

COFFEE ICING

1/2 cup butter 2 teaspoons soluble coffee
1 egg yolk 1/2 cup sifted confectioners' sugar

Mix butter and egg yolk. Add sifted confectioners' sugar which has been mixed with soluble coffee. Gradually add milk, beating all the while, until a smooth, creamy consistency is reached.

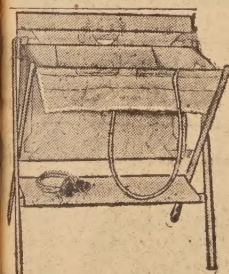

MARSHMALLOW SUPREME

1/2 lb. marshmallows 1/2 cup sugar
1/2 cup sherry 1 1/2 cups undiluted evaporated milk
3 envelope unflavored gelatin 2 teaspoons soluble coffee
1/2 cup cold water 1/2 cup hot water

Cut marshmallows in quarters and let them stand overnight in sherry. In top of a double-boiler, dissolve gelatin in cold water. Cook for 10 minutes, stirring constantly. Dissolve soluble coffee in hot water. Add to the milk mixture. Fold in marshmallows. Pour into one quart mold rinsed with cold water and chill. Unmold, garnish with whipped cream, cherries and almonds.
Yield: 6-8 servings.

RILEY AND DAUGHTER — William Bendix (he's Chester A. Riley) and Louise Erickson (who portrays his teen-age daughter, Babe) of NBC's "Life of Riley" seem to be enjoying, at rehearsal, a script incident which will undoubtedly make Riley pretty uncomfortable on the air.

SONGS FOR SUMMER — Lucille Norman, a frequent guest on the winter series of "The Railroad Hour" joins Gordon MacRae for the summer series of the NBC program on Monday nights. They will present a "musical almanac" during the summer, with each show featuring songs from different eras in American history.

New, All-Time Record! Users Now Buying 1530 CHEVROLET TRUCKS A DAY!

We and all other Chevrolet Dealers have delivered 40,001 Chevrolet trucks—an average of 1530 a day—in a single month! That's an all-time, all-industry record that no other truck even approaches. That's the best possible "buy-sign" for you. It tells you that Chevrolet trucks are first in user preference because they're first in value. It tells you that Chevrolet trucks are the proved leaders on all kinds of roads for all kinds of loads. It tells you that Chevrolet trucks will haul your goods more miles at less cost per mile. Come in and get all the money-saving facts!

*Based on official dealer-reported sales during the last full month for which figures are available.

ADVANCE-DESIGN TRUCKS

Performance Leaders

Chevrolet's newest and most powerful trucks feature an improved 92-h.p. Thriftmaster Valve-in-Head engine and a brand-new 105-h.p. Loadmaster Valve-in-Head engine. Smooth, quick acceleration is provided by Chevrolet's new Power-Jet carburetor. Synchro-Mesh transmission enables driver to shift with greater ease and safety.

Payload Leaders

Chevrolet trucks deliver the goods at low cost per mile—and deliver them fast! Features like Chevrolet's Diaphragm Spring clutch for smooth engagement and Double-Articulated brakes for complete driver control enable you to meet the most demanding road schedules.

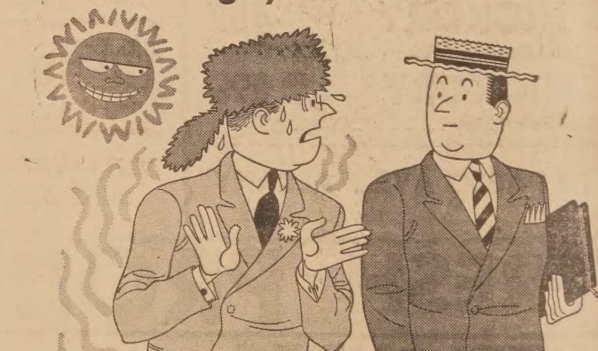

Popularity Leaders

Chevrolet Advance-Design trucks are America's biggest sellers! That's because users recognize the value of such Chevrolet features as Hypoid rear axles that are 5 times more durable than spiral bevel type and Unit-Design cab and bodies that are built for added strength and durability.

Price Leaders

Chevrolet's rock-bottom initial cost, economy of operation and upkeep and high trade-in value add up to the lowest price for you. Compare value: Compare what you get for the price you pay. You'll find everything favors Chevrolet trucks.

"My wife's idea! Today I'm to check the heating system for winter!"

Summer sun is shining bright... Mister, now the time is right! Check on winter heating needs. See your dealer; get some leads.

Family growing? Want more heat? A console heater's mighty neat. Or put a furnace in the floor. Quickly installed; worry no more.

Equipment checked; repairs made. One heater added; thrifty, new. Complete home comfort at lowest cost. Among the lowest in the United States.

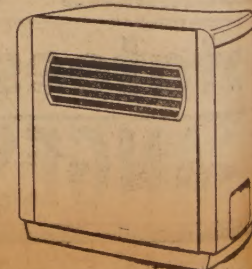

Checking Up for Winter? It's smart to do it right now before cold weather starts! If obsolete or converted heating equipment is costing too much to keep in repair... if your heat is inadequate or temperamental... get facts and figures on the new, modern, complete gas-designed installations. Your dealer can show you how to save many a dollar on upkeep and fuel.

Californians can afford to live comfortably because P. G. and E. rates are among the lowest in the nation. Periodic check-ups and modern, efficient equipment reduce costs still further.

Homemaking
Today

By Marguerite Fenner
 Director of Home Economics, P. G. and E.

Fried chicken is a favorite what-
 ever way you fix it! Dip it in flour
 or in batter, fry in shallow or deep
 fat, cook in a skillet on the top of
 the range or finish in the oven for
 a take-it-easy dinner. The result
 should be the same—golden-brown
 pieces of savory chicken, crisp on
 the outside, moist and tender in-
 side. Every bite is good eating.

Did you know that the "chicken
 of today" is meatier, more tender,
 more delicious? The all-purpose
 chicken weighs from 1½ to 4
 pounds (ready-to-cook weight) and
 may be broiled, fried or roasted.
 Chickens under 2½ pounds can be
 quartered for frying, larger ones cut
 into frying-size pieces.

You can
 buy handy
 packages of
 frozen chicken
 ready to
 cook as soon
 as you de-
 freeze. If you
 have a home
 freezer or one
 of the new combination refrigerator-
 freezers, this is a good item to
 keep on hand for unexpected com-
 pany. And for the Emergency Shelf
 there are whole or half-chickens in
 cans. These are already cooked and
 all you have to do is cut the chicken
 in pieces, dip in flour and brown.

To be "in the know" when it
 comes to fried chicken, you'll want
 to be familiar with both of the
 methods given below. Still another
 way to prepare this delicacy is to
 dip the chicken pieces in a batter
 and fry in deep fat.

COUNTRY FRIED CHICKEN
 1 young chicken, cut for frying
 ¾ cup corn meal
 2 tablespoons flour

MARYLAND FRIED CHICKEN
 1 young chicken, cut for frying
 ¾ cup flour
 1 teaspoon salt
 ¼ teaspoon pepper
 1 egg
 ¾ cup milk
 ¾ cup dry bread crumbs
 Fat for frying

Roll chicken
 in seasoned
 flour. Let it
 stand 5 min-
 utes. Beat egg
 slightly and
 mix with milk.
 Dip flour-coated
 chicken in egg
 mixture, then
 in bread
 crumbs. Heat
 3 tablespoons fat in large frying-
 pan that can be covered and used
 moving from pan as it is browned.
 Add a little more fat and brown re-
 mainder of chicken. Return all to
 pan and cover tightly. Bake 1 hour
 at 350° F. Use pan drippings to
 make gravy.
